Planet Ayurveda came into existence with an innovative thought by Dr. Vikram Chauhan (MD-Ayurveda) for his passion to serve humanity. The company has touched new heights as our product lovers are spread all over the globe. The company is GMP certified, US-FDA Registered, ISO 9001:2008 and exporting products to USA, Europe, South East Asia and Africa. Great emphasis is laid on the selection of the right type of raw material and herbs for manufacturing herbal products.

Planet Ayurveda has many herbal products on its list. One of the most promising Arjun Tea is really an excellent product for patients suffering from heart problems, high cholesterol and blood pressure, which was company's first product. The efficacy of the product lead to spread of other products also, which contemplated the same and the product range crossed over 200 products.

Planet Ayurveda is dedicated to the promotion of natural herbs and bringing their benefits to the common man. We definitely need your regular encouragement and support to spread the message of “Holistic Healing Through Nature”, to lead a healthy and happy life. We manufacture and market two main categories of Ayurvedic medicines - the traditional pharmacopeial preparations (roughly the equivalent of generics), and branded ‘Patent & Proprietary’ products (P&P) which are analogous to the branded formulations of modern medicine.

All our Ayurvedic products are manufactured with the specifications laid down in the Ayurvedic Formulary of India, the official compilation of the department of health Department of Family Welfare and Ministry of health, India and as per world GMP standards. All the raw material is tested for microbes, fungi, heavy metals in sophisticated lab of our company and once the product is ready, it’s tested again for the same. This ensures the compliance as per international parameters. After all these tests, the product is finally included in the corporate marketing plan.

**Our Core Values**

**Ownership**
We accept personal responsibility, and accountability to meet business needs and have passion for winning. We all are leaders in our area of responsibility, with a deep commitment to deliver results. We are determined to be the best in all spheres of our work.

**Our Assets**
Our customers, distributors and employees are our most important asset. We add value through result driven training, and we encourage & reward excellence. We give preference to our consumer needs and develop products to fulfill them better.

**Team Work**
We work together on the principle of mutual trust & transparency in a boundary-less organization. We are intellectually honest in advocating proposals, including recognizing risks.

**Research, Development and Innovation**
Continuous innovation in products & processes is the basis of our success Integrity: We are committed to the achievement of business success with integrity. We are honest with consumers, with business partners and with each other.

**Our Vision**

“Planet Ayurveda yearns to make herbal wellness a part of every home in the world. That’s why we explored 5000 years ancient knowledge of Ayurveda and blended it with modern scientific research to develop effective herbal supplements, which actually give results. We want to be the most trusted company in scientific herbal healthcare and admired for our ethics, values and commitment to sustainability. We want to spread awareness about how to live healthier lives, not only from our medications, but also by sharing knowledge of Ayurveda”.

Dr. Vikram Chauhan (MD-Ayurveda Herbal Pharmacology) is CEO and Founder of Planet Ayurveda Pvt. Ltd. He had done researches on Age-Old formulas from Ancient Ayurvedic Textbooks to restore Health and Save Humans from the worst Side effects of Chemical based treatment. He has detailed knowledge about herbs and also about their applied uses. The Herbal Formulations prepared by Dr. Vikram Chauhan are Result-Oriented and Effective, with which he has been treating Many patients across the Globe for More than 20 Years. Even being Strictly connected to the Roots of Ayurveda, he is walking with Trends by providing All the services, Online and Offline as well.

Planet Ayurveda is now one of the topmost leading Global Ayurvedic Brands, and is successfully Healing Communities Worldwide in accordance to the Principles of Ancient Medical Science, Ayurveda. Planet Ayurveda, an established Brand, ISO 9001:2015, G.M.P. Certified and US-FDA Registered Herbal Supplements Manufacturing Company exports to US, Europe, Africa, Canada, South East Asia, etc. Dr. Vikram Chauhan is Author of the Book "Ayurveda - God's Manual for Healing". Dr. Vikram Chauhan has been on various National / International TV Channels for Interviews, Written Articles for Various Health Columns in International Newspapers, Journals, and Magazines. He is being Invited to Deliver Lectures at Various National / International Forums and Colleges. Exclusive Outlets of Planet Ayurveda are being visited by him frequently for Consultations, Seminars, Lectures, and Workshops on Ayurveda.
Why Our Products are Effective & Superior than Others

1. We are using 100% vegetarian capsules made from plant cellulose and not hard gelatin capsules, which are low in cost and are made from chemicals+ cow cartilage+ pig intestines.

2. We are using pure herbs, standardized extracts in our 100% natural herbal supplements and not regular extracts.

3. We are filling 500 mg standardized herbal extracts in our vegetarian capsule shells, while many other manufacturers are filling 250 mg herbal extracts or raw herb powders alone.

4. The cost of raw herb powder is minimum, the cost of herbal extract is 10 times more and the cost of standardized extract is further more.

5. Most of the manufacturers fill 250mg. herbal extracts and the rest of the 500mg. capsule shell is filled with raw herb powder or fillers / chemicals / flour etc. just to cut costs. We fill only standardized extracts without any preservatives or fillers or chemicals.

6. Our products are 100% natural supplements, made from pure natural herbal extracts in 500mg or more quantity in each capsule.

7. This was about capsule based formulations. We have herbal supplements made from pure herbs, herbal tablets made from 100% natural organic herbs, herbal juices prepared from best quality herbs.

8. We manufacture Panchkarma Massage Oils & Herbal Ghritams (Herbs processed in clarified Butter of Cow) with 100% pure ingredients and with age old manufacturing techniques.
